

# Helping you find and keep a job

## What is SNAP2Work?

SNAP2Work is a program that connects SNAP recipients with services and resources in your community that will help you find and keep a job.

### Services offered include:

- **Job search training** - Teaches you the best way to search for a job. Helps you develop the tools you need to be successful (resume, interview skills, career testing, etc.)
- **Job search** - Helps you look in the right places, provides you with connections to help you get a job.
- **Education** - Prepares you for the job market by making sure you have the proper education, reading and writing skills, etc.
- **Vocational training** - Upgrades your skills to fit the labor market so you have what employers are looking for.
- **Job retention services** - Teaches you the “do’s and don’ts” of employment so you can keep the job you get.

## Why should I participate?

The job market is tough and everyone can use some help finding a job these days. Many companies in South Carolina are ready to hire, but the workers need to be trained to do the jobs that are available. It is estimated that 45% of the jobs available in SC require some vocational training, but only 29% of people in SC are qualified for those jobs.\*

The SNAP2Work program can connect you with providers who will help you develop the skills and receive the training you need to help you become qualified for the jobs that are available in your community.

## How do I get started?

If you want to participate, you simply need to contact one of the providers in your area. For a complete, up-to-date listing of providers, visit the website:
